

# Cambodia: Current Climate Change Issue

**Ministry of Mines and Energy**

**General Department of Petroleum**

**For CCS-M National Coordinators Meeting**

**February 15<sup>th</sup> – 16<sup>th</sup> February, 2015**

**Bangkok, Thailand**

# Contents

- I. General Information**
- II. Climate Change Issue**
- III. Exiting Strategy**
- IV. Mitigation Plan**
- V. Conclusion**

# General Information

The GDP growth:

- 7.0% (2015)
- 7.0% (2014)
- 7.1% (2013)

Population: 14.6 million

Net Imported Petroleum Products

Inflation Rate in 2015: 1.4%

[GDP - composition, by sector of origin:](#)

agriculture: 28.6%

industry: 27.9%

services: 43.6% (2015)

# Climate Change Issue

Cambodia is a country

- low emitter, but
- high vulnerable to the effects of climate change
- The most effective sector are:
  - Floods
  - drought
  - costal zone
  - infrastrcuture.....
- The damage and loss caused by the 2013 floods was 356 million USD
- It was similarly in 2012 drought the damage and loss caused 200 million USD

# Existing Policy and Strategy

- National Strategic Development Plan (NSDP) 2014-18
- Intended Nationally Determined Contribution (INDC) to UNFCCC
- The Cambodia Climate Change Strategic Plan(CCCSP) 2014-2023.
- Green Growth Policy and Roadmap
- Integrating Climate change into the financing framework

# Existing Policy and Strategy (cont..)

- National Adaption Plan (NAP)
- National Adaption Programme of Action Climate Change (2006)
- Sectoral Climate Change Strategic Plans and Action Plans
- National Forest Monitoring System

# Mitigation Plan

- (i) **Energy industries, manufacturing industries, transport, and other sectors:** Cambodia expected to be a maximum reduction of **3,100 Gg CO<sub>2</sub>eq** compared to baseline emissions of **11,600 Gg CO<sub>2</sub>eq** by 2030.
  
- (ii) Increasing forest cover to 60% of national land area by 2030. It is expected to reduce to **7,897 GgCO<sub>2</sub>** in 2030 compared to projected sequestration of **18,492 GgCO<sub>2</sub>** in 2010.

# Conclusion

- Low emitter
- High vulnerable
- Poor protection system
