

The Coordinating Committee for Geoscience Programmes in East and Southeast Asia (CCOP) is a regional intergovernmental organization, based in Bangkok, Thailand. Its mission is to facilitate and coordinate the implementation of applied geoscience programmes in East and Southeast Asia in order to contribute to economic development and the improvement of the quality of life in the region. The 11 member states comprises Cambodia, China, Indonesia, Japan, Republic of Korea, Malaysia, Papua New Guinea, Philippines, Singapore, Thailand and Vietnam. It is supported by 14 Cooperating Countries; Australia, Belgium, Canada, Denmark, France, Germany, Japan, The Netherlands, Norway, Russian Federation, Sweden, Switzerland, United Kingdom and United States of America which provide financial and technical input to the organization's activities. CCOP has been acknowledged by its member states and the international society as a vital and successful organization in serving the region for sustainable economic development and will continue to play the role in regional cooperation in geoscience programmes.

CCOP has made capacity building, technology transfer, exchange of information and institutional linkages for sustainable resource development as its core objectives with strong emphasis in petroleum, management of geoinformation, geohazard mitigation and protection of the environment its priorities for promoting sustainable socio-economic development.

In support of CCOP's continuous development and promotion of the Member Countries energy programmes, CCOP with the support of the Norwegian Agency for Development Cooperation (NORAD) will carry out the Exploration Promotion Forum for CCOP Member Countries in conjunction with the Offshore Northern Seas 15th International Conference, Exhibition and Festival (ONS2002) on 27-30 August 2002 in Stavanger, Norway. The Offshore Northern Seas has long been regarded as one of the premiere and most important meeting places in the energy sector attended by leading professionals all over the world.

The last Exploration Promotion Forum held for the CCOP Member Countries was arranged by PETRAD in conjunction with the World Petroleum Congress in Stavanger, Norway in 1994. After the successful holding of the EPF94, CCOP has decided to hold another exploration forum for the Member Countries in conjunction with ONS2002. PETRAD, the Bridge Group, and the Norwegian Petroleum Directorate will be assisting CCOP in the planning and execution of the CCOP-EPF2002.

CCOP will send a 50-member strong delegation to the event showcasing a joint effort from the Member Countries in promoting the region's oil and gas industry. Open dialogue with the oil industry is critical for countries with petroleum potential wishing to promote development of their petroleum resources. This meeting could then be viewed as a meeting place for future exploration in the East and Southeast Asia region and will provide a cost-effective market place for CCOP Member Countries to promote their oil and gas potentials to the oil industry. It will also give key decision makers the opportunity to get exposed to market realities and provide a forum to address issues of regional and industry wide significance.

Three major activities have been organized for CCOP's participation in ONS2002:

- CCOP-EPF2002 Exhibition
- CCOP-EPF2002 Conference
- Side Meetings (Member Countries dialogue with the oil industry)

ONS has become an important marketplace and forum for the international offshore industry - a key to an expanding market for petroleum-related technology and services.

Improved efficiency, optimisation and downsizing are key factors in achieving the economic performance required for the future. Together with the central environmental challenges facing the industry, this will be part of a broadened concept for ONS 2002. The exhibition will reflect the international focus on energy and environment.

ONS 2000 was the first ONS event of the new millennium. Through its conference, exhibition and special seminars - the innovation, exploration promotion and investment recovery fora - it identified the main trends in world-wide oil and gas development. The future has been found. Now you need to stay with it, and keep abreast of its challenges - technological progress, smaller fields, deeper waters, decommissioning for re-use, environmental protection and so forth. And the best location to get that essential update will be ONS 2002 - the place to do business.

 15th International Conference, Exhibition And Festival
 27-30 August 2002, Stavanger, Norway

CCOP-EPF2002 Conference

Date	28-29 August 2002
Place	Rogaland Art Museum Auditorium, Stavanger Forum Center, Stavanger, Norway. (The venue is next door to the ONS2002 Exhibition Area)
CCOP attendance	The conference will be attended by the CCOP Member Countries : Cambodia, China, Indonesia, Korea, Malaysia, Papua New Guinea, Philippines, Thailand and Vietnam. Delegates will be senior government officials and national oil company executives of the petroleum and energy sectors.
Industry attendance	Oil company and other industry representatives interested in new petroleum licensing and development in the CCOP countries.
Presentations	The countries will make presentations that cover exploration history and current activity, geology and hydrocarbon potential, legal and fiscal terms, and license- and investment opportunities. Important announcements of investment opportunities are expected during the presentation by Member Countries. The country presentations will be open for questions and discussion.
	Industry experts have been invited to deliver addresses on key issues related to the development of the petroleum resources in the region.

CCOP-EPF2002 Exhibition

The CCOP countries will participate in the ONS2002 Exhibition.

Date	27-30 August 2002
Location	Stand no. G768 in Hall G

The exhibits	Geological/geophysical maps of proposed licensed areas, seismic sections, license and activity maps, reports, data samples and documentation of fiscal systems. Promotional brochures by Member Countries will be available.
	The stand will also highlight the multi-ethnic, multi-cultural, multi-lingual characteristics and colors of the Orient. The colorful cultures of the Member Countries, indigenous music, costumes and artworks will be part of the display. It is well worth a visit!

CCOP-EPF2002 Side Meetings

During the exhibition and conference, the CCOP country representatives will be available for separate meetings with interested oil companies or other industry representatives. Facilities may be provided for such meetings.

Contact Addresses

CCOP TECHNICAL SECRETARIAT	24 th Floor, Suite 244-245, Thai CC Tower, 889 Sathorn Tai Road, Sathorn, Bangkok 10120, THAILAND Tel : +66 02 672 3080, +66 02 672 3081 Fax: +66 02 672 3082 E-mail : ccopts@ccop.or.th Website : http://www.ccop.or.th
OFFSHORE NORTHERN SEAS (ONS)	PO Box 410, N4002 Stavanger Norway Tel : +47 51 59 81 00 Fax : +47 51 55 10 15 E-mail : ons@ons.no Website : http://www.ons.no

Registration to CCOP-EPF2002 Conference and Exhibition

Registration	Registration for CCOP-EPF2002 should be made using the CCOP registration form and return it to the CCOP Secretariat at the address below. Registration to other events during ONS2002 should be made directly to ons@ons.no
Registration fee	Registration to the CCOP-EPF2002 Conference is FREE. However, the CCOP-EPF2002 Conference and Exhibition is part of the ONS2002 Exhibition. The registration fee for the exhibition is USD 40 (NOK350), payable on registration at ONS2002.
Accommodation	ONS will set aside a certain number of hotel rooms for conference delegates and the press, but their number is limited and early reservations will be advisable. In addition to hotel rooms, ONS can also offer a wide range of high-standard accommodation in private flats and houses. Requests regarding accommodation can be made to : booking@stavanger-forum.no

Tentative Programme for the CCOP-EPF2002 Conference

Wednesday 28 August

08:00	Registration
09:00	Welcome and Opening Address
09:15	CCOP an instrument for regional co-operation in exploration and resource management Speaker: Mr. Chen Shick Pei, Director, CCOP
09:45	Exploration terms and practises - what does an international major look for? Speaker: Mr. John Pickard, Exploration Manager, BP, Norway
10:15	New frontier onshore exploration opportunity - Tonle Sap Basin Speaker: Mr. Lim Vatha, Deputy Chief of Exploration and Production Division, Cambodian National Petroleum Authority
11:00	Coffee/tea Break
11:30	Petroleum potential, framework condition and opportunities for foreign oil & gas company in China Speaker: Mr. Meng Haitao, Staff Member, Ministry of Land and Resources, China
12:45	Lunch Break
14:15	The golden opportunity from Indonesia Speaker: Mr. Sasongko Hadipandoyo, Head of Hydrocarbon Resource Assessment Group, LEMIGAS, Indonesia and Mr. A. Edy Hermantoro, Associate Director for Acreage Management, MIGAS, Indonesia
15:00	Oil companies, contractors and service companies- cost efficient roles in exploration and development Speaker: Mr. Ole Fredrik Ekern, Vice President Emerging Markets, PGS
15:30	Coffee/tea Break
16:00	Upstream opportunities in Korea Speaker: Dr. Dae-Gee Huh, Principal Research Engineer, KIGAM, Korea
16:45	Close

Thursday 29 August

09:00	Gas developments in South East Asia - commercial options and future perspectives
09:30	Exploration opportunities in Malaysia Speaker: Mr. Nordin Ramli, Acting Senior Manager, PETRONAS, Malaysia
10:15	Coffee/tea Break
10:45	Papua New Guinea Country Paper Speaker: Mr. Peter Woyengua, Acting Registrar, Department of Petroleum & Energy, Papua New Guinea
11:30	Resource classification and resource assessment - modern developments and approaches in CCOP Speaker: Mr. Per Blystad, Principal Engineer, Norwegian Petroleum Directorate
12:00	The Philippine petroleum exploration investment promotions Speaker: Mr. Simplicio Caluyong, Senior Science Research Specialist, Department of Energy, Philippines
12:45	Lunch Break
14:15	The role and contribution of national private and state owned oil companies in the CCOP region Speaker: Mr. Zainal A. Matassan, Secretary-in-Charge, ASCOPE-Asean Council on Petroleum
14:45	Discover a new success in Thailand Speaker: Mr. Rungson Charusirisawad, Senior Geologist, Department of Mineral Resources, Thailand
15:30	Coffee/tea Break
16:00	Exploring Vietnam: an introduction to exploration opportunities for oil and natural gas in Vietnam Speaker: Mr. Nguyen Viet Anh, Geophysicist, PETROVIETNAM, Vietnam
16:45	Close
